Effective & Passionate MERN & XAMP Web Developer

With over 1 year of freelance experience

I am a self-motivated and fast learner developer with skills in HTML, CSS, SCSS, JavaScript, Python, PHP, React, express.js, and node.js, with experience in developing websites using the MERN and XAMP web stacks. I have been working as a freelance developer for over a year and I have planned, designed, and developed several websites, with a vehicle content management web application as one of my biggest projects. I have skills for both the front-end and back-end and I am competent to contribute to a web and software development team.

Skills

- Reliability and self-motivation
- Use HTML, CSS, JavaScript, PHP, MERN & XAMP stacks and the Model View Controller architecture for web development
- Build collaborative relationships with colleagues of diverse cultures and viewpoints

- Excellent communication Skills
- Deploy digital technologies ethically and efficiently - to solve problems and complete tasks
- Enthusiasm and patience
